Look for those that are highly qualified and the most downloaded; In general, they are the most safe elections. Protecting yourself while downloading just when it takes precautions when you open an email that could be a phishing scam, you should also take precautions when you download videos in line. Safe Fire Safe Saving if you want to save a video that you are sure to keep safe to maintain, it may be something personal that a family member is shared on social networks and has its permission: there is one. Way to do it, that may be sure: screen recording. But it may also ask yourself if you are good to save the media you find in line, from the only and personal security points.
